

Christian Kobler

Member of the Executive Board, Chief Operating Officer and Founding Partner

As a partner in the management consulting company Bernet & Partner which specializes in the financial industry, Christian Kobler has been responsible for advisory mandates and projects in the fields of IT, project management, strategy and operations for the last 11 years. During this time he saw a number of complex major projects through to successful completion at banks and also co-developed the Swiss Banking Performance initiative of Bernet & Partner and the University of St Gallen. Prior to this he worked in both specialist and management functions, primarily in banking technology, at Logica, ISYS, Cap Gemini, and IBM. He is a Member of the Board of Directors of an IT service company, an expert for baccalaureate exams in business administration, and dedicated to the good health of school children in his home community. He holds a MBA from the University of St Gallen.

«For me, Forma Futura means working together with my partners and our discerning clients to create tangible values whilst simultaneously making a positive contribution to the quality of life of future generations.»
